

Proven Products. Patent-Powered Innovation, Let's Build Global Partnerships.

Nucare is built on deep engineering expertise and a commitment to innovation. Our radiation detection systems are trusted worldwide—proven in the field, not just on paper.

We are now looking to form strategic partnerships with experienced sales and marketing professionals or distributors worldwide. Each of our products — from handheld RIIDs to backpack systems — has already achieved hundreds of successful deployments, proving their trustworthiness in the field.

If you're ready to grow your portfolio with high-demand, high-trust products—**let's talk.**

Handheld, Backpack, Vehicle RIIDs, SPRD and more.

Why Partner with Nucare?

- **Innovation Backed by Patents**
Our technologies are driven by original research, ensuring unique value in every product.
- **OEM Partnership Ready**
We offer seamless OEM supply options for partners looking to integrate or rebrand our trusted solutions.
- **High Customization Capability**
As an engineering-focused company, we tailor hardware and software to meet specific field requirements or customer needs.
- **Proven Sales Track Record**
With hundreds of units sold per product line, our systems are field-tested, trusted, and in active use worldwide.
- **Competitive Pricing & Flexible Supply Chain**
