"Accelerate your path from idea to innovation"

OEM Partnership Opportunity

"Engineering excellence. Mission-ready solutions. Delivered under your name."

Innovation & Technical Leadership

- 15+ years in radiation detection R&D
- Proprietary algorithms and patented technologies
- 20+ working prototypes delivered and field-tested

Military & Space-Grade Engineering

- High-reliability design and rugged construction
- Radiation-hardened systems with EMI/EMC compliance
- Delivered to IAEA, defense, and high-containment sites

Custom Solutions & Flexibility

- Design tailored to your mission and requirements
- Agile co-development and full lifecycle support
- OEM-ready platforms and white-label options

Strategic OEM Partnership

- **Offer Under Your Brand**
Supply our field-proven systems with your branding
- **Full Technical Support**
Documentation, integration guidance, and training included
- **Flexible Business Model**
Choose from private label, co-branding, or exclusive supply
- **Customization Available**
Modify designs to meet your application specific needs
- **Reliable Supply Chain**
Scalable production and dependable delivery schedules
